Match the Sound

*Main purpose* - To recognise phonemes.

Use the letters - b, c, l and s and the corresponding Bullants character cards. Print out the A4 cards, back them with wrapping paper and laminate them. Decide the ability level of your children and play the appropriate matching game. (Letter/Letter match; Letter/Picture match; Picture/Picture match.)

Lay all the cards on the floor, letter/picture side down. Make sure you leave enough space in between the cards for the children to walk around them. Get the children to play a simple matching game with the cards. Start by asking a child to turn over a card, if they can tell you what sound the letter/picture represents they get to continue and turn over another card to try and find a match.

This game can be replicated on the table top for 2 players.
